Fall Quarter 2016 Week 3

10 October 2016

SGSM Conference Room

Board Members Present:

Roxana Ayala

Jamie Hearn

Emily Majorkiewicz

Ruth Priscila Morales-Toledo

Paola Romero

Tyler Valdes

1. Commissioner & Administrative Updates:

• Secretary: Emily Majorkiewicz

• Accounting: Paola Romero

- Will be meeting with Stephanie on Wednesday

• Marketing: Tyler Valdes

- Boothing is going well, students were very interested in TGIF
- Will also be revamping the branding and color scheme of TGIF
- After some comments that the online application is difficult to find, will be printing out 1,000 1/4th page size flyers for specific instruction to find TGIF funding applications

• External Affairs: Roxy Ayala

- Will also be meeting with Stephanie
- Will be working on the second newsletter

• Sustainability: Jamie Hearn

- Spoke with Stephanie, updated funding application online
- 2 interns have applied thus far
- Marketing news: Location of folding chairs, table-cloth, and sign with new branding and design are not known, will be reordering them. Budget may not allow for big prize giveaway, so we can get a table cloth instead

• ASUCI: Stephanie van Ginkel

2. Projects to vote on:

• Hyperxite

- Great project, but not TGIF's place to fund engineering projects that do not benefit the majority of undergraduate students
- According the the website, they already have many donors and sponsors
- Outreach to the undergrad community was also lacking
- Did not submit post-event report
- **Vote: 0 In Favor, 5 Opposed, 0 Abstain**

• UC Irvine Racing – Baja

- Has the most undergraduates working on it, but only 21 undergrads
- For all cars, only students of engineering classes are participating
- **Vote: 0 In Favor, 5 Opposed, 0 Abstain**

• UC Irvine Racing – Thor

- Describes recycling past materials to be sustainable, yet the amount requested is still very high
- **Vote: 0 In Favor, 5 Opposed, 0 Abstain**

• UCI Formula SAR – Mantis

- Only open to seniors, and those that are engineering majors, so is less than 51% are undergraduates
- This is the 3rd year of application for the UCI Racing, but outreach hasn't really improved
- **Vote: 0 In Favor, 5 Opposed, 0 Abstain**

• 2016 Students of Color Conference

- Not all participants are UCI undergrads, large majority are not from UCI

- Metrics and measurability was a bit vague, stating that students could do things, but the event needs to have a definitive demonstration
- Shipping costs were not included with items requested
- Would like the organization to clarify attendees, would like feedback from only UCI undergraduates, and would like some sort of tangible measure of learning
- Items come from reliable sources, but participants should be encouraged to bring their own bags
- Tabled for next week

• Fall 2016 Sustainability Fair

- Have estimated 300 undergraduates will attend
- Promotional items are unique, thought the green room screen items are a bit vague
- Can have a stipulation for cups to be compostable
- Still need a post-event report
- Tabled for next week

3. Intern Program Planning
