- b. Projects – *40 minutes*
  - Cross Cultural Center
    - ✓ Nikki will respond to their email – we may just vote on this over Facebook later in the week before break.
    - ✓ Will resubmit items.
  - Crescent Clinic
    - ✓ Drei – laptops can store more information. Maybe we don't need to fund both the iPads and laptops. Laptops are more useful for the purpose of storing information about the patients.
    - ✓ Asia – more willing to pay for laptops than tablets and tablets than iPads because laptops are more convenient in the long run.
    - ✓ Janice - If it's between iPads or laptops, I would say iPads because I'd rather spend money on something they need, and it seems they need the iPads more for the purposes of filling out forms/getting consent signatures.
    - ✓ Will resubmit tablets.
  - Good to be Green
    - ✓ Will resubmit items.
