during the open portion of meetings. New members must attend at least two (2) meetings before their term starts, or receive equivalent training by the current/outgoing Board.

**FUNDING POLICY:**

1) Undergraduate organizations must submit an application for funding to the Undergraduate Student Programming Funding Board. Funding applications will be accepted on an ongoing basis until all funds have been allocated. Funding Application forms may be downloaded from the ASUCI website www.asuci.uci.edu. There is no guarantee that addenda/changes to the Funding Application will be accepted. No application changes will be accepted on the day of the interview.

2) Funding is only available to UCI undergraduate organizations for programs or activities that contribute to the social, cultural and educational quality of life of UCI undergraduate students and community.

3) Applications will be considered on a first-come, first-served basis.

4) Funds will not be allocated to:
   a) Political candidates, committees or campaigns;
   b) Programs conducting religious services, including, but not limited to: ceremonies, rituals, sermons, etc.
   c) Activities that directly benefit organization members and not the UCI community at large, such as – internal club costs, including, but not limited to: costs incurred by regular or non-regular club meetings, banquets, retreats, club banners, club T-Shirts, or other organization merchandise.
   d) Applications that do not satisfy these criteria may be dismissed without an interview. If an allocation is made and it is found that these criteria have been violated it may jeopardize their ability to apply for funding in the future.

5) To ensure that funding is available all year, the following funding restrictions must be adhered to by the Student Programming Funding Board:
   a) Funding requests may not exceed $10,000.
   b) Single funding categories (ie: Facility, Staff_Tech) may not be funded more than $7,500.
   c) The Funding Board may not fund more than 75% of starting SPFB funds for the Fall and Winter Quarters combined - at least 25% of starting funds must be still available during the Spring Quarter.
   d) The Undergraduate Student Programming Commissioner will consult in person with the ASUCI Financial Advisor monthly and make available monthly budget updates to the other Funding Board members and the public through the ASUCI website.

6) Fundraising events or activities may receive funding on a loan-grant basis. In these
instances, it is the discretion of the Board if a loan-grant or a final allocation will be given to the application in question. If a loan grant is chosen by the Board, clubs are given a “loan” from ASUCI, whereby if income (revenue plus the ASUCI allocation) exceeds the total cost of the event, then the revenue must be used to pay back ASUCI up to the amount allocated, at the discretion of the board. In the case of a philanthropic event, tickets may not be sold, although, “suggested donations” are acceptable.

a) Student Programming Funding Board funds may be used to underwrite programs that are expected to generate a contribution to a non-profit organization. In such cases, if a donation is required for entrance to the event, the Student Programming Funding Board allocation must be returned to the Student. Programming Funding Board on a pro-rata basis. If donations are not required as a condition of entrance to the event, they may be solicited during the event without invoking the requirement that the Student Programming Funding Board allocation be returned to ASUCI.

b) If there are ticket sales for an event, the organization must provide an accounting of all income and expenses at the conclusion of the event and the board reserves the right to audit their account if they suspect a discrepancy. If the organization refuses the audit this may jeopardize their ability to apply for funding in the future.

7) Funding of a program does not constitute a precedent for funding in subsequent years.

8) The Undergraduate Student Programming Funding Board shall consider and evaluate funding requests on the following criteria:
   a) The number of UCI undergraduate students that will directly benefit from the program.
   b) The program is held on the UCI campus.
   c) Whether or not a campus program will occur without the allocation of ASUCI funds i.e. - opportunity for funding from sources outside of ASUCI.
   d) The degree to which the members of undergraduate organization has engaged in fundraising activities in support of the program i.e. – attempts to obtain funding from sources outside of ASUCI.
   e) The total amount of the request.
   f) Whether this is a new or traditional annual program.

9) Funding is allocated on a program by program basis and shall only be used for the program and purpose that was approved by the Board. In the event that a program includes a multiple number of events during a multiple day, week, month, or quarter long period, each event within the program must have its own application with the title of the overall program and the event in question (Example – “Club X Month: Workshop A” ; “Club X Month: Workshop B” etc) which will be reviewed individually by the Board. It is suggested that all of these events be submitted by the undergraduate organizations on a single day and that the Board review all of the events on a single day.

10) 60 Business days after the date of an event, any unspent funds will be returned to the
Student Programming Funding Board.

11) Any unspent funds at the end of the fiscal year will be returned to the ASUCI reserves.

12) Immediately following the approval of the overall budget for ASUCI, the Undergraduate Student Programming Funding Board may be established to hear requests for student programs. Until the transition of powers occurs and the new Funding Board members take their seats on the Board, the current Funding Board members will allocate monies for programs which will occur in the following fiscal year. These allocations will not be available to clubs/organization until Day 1 of the New Fiscal Year in question.

13) All interviews of the Undergraduate Student Programming Board are open to the public. Following interviews, the board will deliberate over and allocate funds in private. In the event that questions arise during the deliberation, a current contact number (or two) should be taken down and the contact person for the application in question shall be called for clarification purposes.

14) At least one, but no more than three representatives from the club/organization that has submitted an application MUST be present at the date and time of the scheduled interview or the application will become null-and-void and will NOT be viewed at a later date or time during the quarter in which the application was denied. One application for an individual event may be submitted per quarter. If an application has been voted on by the Board, another application for that same event may not be reviewed again by the board unless by appeal.

15) It is suggested that requests are placed at least four weeks before the date the program is set to occur as to ensure that funding, if allocated, is received by the club/organization in a timely manner. If an organization fails to submit an application four weeks prior to the event date, they will not be guaranteed an interview prior to the event. Applications must be submitted before the event takes place, no applications will be accepted after an event has occurred. Clubs/organizations will be contacted by the Undergraduate Student Programming Commissioner at least two business days prior to the application’s hearing to ensure proper attendance by the representatives from said club/organization.

16) ASUCI Undergraduate Student Programming Funding Board does not control the content of an event or program, and supports freedom of speech within an academic context.

**APPEALS PROCESS:**

1) Any organization that can demonstrate that the funding policies have not been followed for their organization’s application may appeal back to the Student Programming Funding Board. This process is initiated by contacting the Chair of the Board.

2) If the organization’s appeal is denied, they must contact a Senate member and request that they sponsor a legislation appealing the allocation of funding. The legislation must include a valid reason how the funding policies had not been followed during the initial review process to mandate that the application be revisited, and specify a new allocation
for the application.

3) The legislation must pass Senate with a 2/3 majority and approval of the Executive Cabinet.

FUND MISUSE
The Board reserves the right to freeze allocated funds of any organization if the Board determines that they are not expending the funds in accordance with the original program proposal that was approved by the Board.

- In the event of such a case, the Board Chair will contact the program’s official representatives in writing and notify them of the Undergraduate Student Programming Funding Board's decision to freeze funds.
- Any freezing of funds shall remain in effect until the Board makes a decision regarding the status of the affected program(s).
- A registered student organization representative shall have the right to appear before the Board before a final decision is rendered regarding the frozen funds.
- They may appeal these proceedings to the Senate, by contacting a Senator and requesting that they sponsor a legislation appealing the freezing of funding.
  - The legislation must include a valid reason how the funding policies had not been followed during the initial review process to mandate that the application be revisited, and specify a new allocation for the application.
- Depending upon the severity of the misuse of Undergraduate Student Programming Funds, the Board may consider further action it deems appropriate up to and including returning the allocation to the Undergraduate Student Funding Board, and barring the registered undergraduate organization from applying for ASUCI funds for the remainder of the current academic year.
