

## **A JOINT STATEMENT ON THE RESCINDED CLASS OF 2021 APPLICATIONS**

**DEAR UCI ENROLLMENT SERVICES: Brent Yunek, Elizabeth Bennett, and Patricia Morales,**

It was brought to our attention that a lot of incoming Freshman have had their admission rescinded. Furthermore, there are many cases where applications were revoked even though students abode by the admission contract.

According to the UCI – Office of Admissions, the requirements that are needed for the provisional admission are:

- Receive a high school diploma or equivalency.
- Maintain at least a weighted 3.0 senior-year GPA in UC approved A-G courses.
- Meet all UC Freshmen Admission Requirements.
- Be in good standing at any prior UC campus attended.
- Submit ALL official high school and college transcripts by July 1, 2017. Summer records are due by September 15, 2017. Click on MySchools above to review which transcripts have been received, and which ones are still required.
- Submit ALL official test scores by July 15, 2017. Click on MyTests above to review whether any test scores are required and whether they have been received.

The incoming students were also sent an email notice only saying that their records would have an enrollment ‘hold’ placed on their accounts but not necessarily their acceptance taken away.

Some students have claimed that they sent their transcripts way before the July 1st deadline (sometimes even in person), yet the admissions office system does not have it on file. Others have a completely clean file, with check marks across the board, and have been rescinded regardless AND without explanation. Some staff members have suggested that it was due to a non-specific reason/violation of your contract and to submit an appeal.

## **Student Testimonials:**

*"I personally was late in submitting my transcript before my first year because the UPS store lost my original letter. So I literally would have had my admissions revoked under **these** policies." - Parshan Khosravi*

*"My senior year, I switched schools. I did all my credits and maintained my grades up to the standards of the UCs. I have already paid for all the registration and orientation fees, plus housing fees. All of these on time. I submitted my test scores and my transcript before the July 1 deadline. I took some college classes junior year but I retracted from submitting them because I knew the credits were not transferable. I don't know if it was because I didn't submit my other high school's transcript even if the grades were going to be on my official final transcript. I tried calling the Admissions office all day today because I saw the message yesterday after work. I called and was on hold for 40 minutes then I called 50 more times after work. No answer. I have sent out three emails and no response."*

*"So in my portal the only thing missing was my college transcript, however i had sent it June 28th and even paid extra for it to get there fast, it arrived on the 30th, I have the receipt and everything, it states what time it got there and even the name of the person who signed for it, that was the only thing missing on my portal, I had messaged and asked a bit but they told me to just wait because they were packed with a lot of papers so I waited and then my admission got withdrawn, my gpa for hs was a 4.14 overall i passed all my classes both semesters and I received the credit i needed in my college class."*

*"I woke up to an email saying to check my portal so I did and I saw in my message center that my admission has been withdrawn because of my high school transcripts not arriving but I'm sure that my school sent them in before July 1st so I got in contact with people at the admissions office and the person I talked to said to just send an appeal and wait and so I did I had to send in the fact that I thought that they got lost in the mail because I got a confirmation via email that they were sent June 26th so I sent that along with other information about how one of my classmates who's going to UCI had her transcripts on file. I don't know whether to send in another transcript VIA mail or I can actually do it in person I would literally Drive 3 hours to Irvine to give them another transcript but I don't know if that's allowed or if they will accept it. My principal is also trying to contact them because I heard that someone else contacted them and it worked so I'm trying that but currently trying to just figure it out because I've spent over \$1,000 already trying to get into the college and now I'm going to lose that along with other scholarship money which equaled about 6,000 plus dollars. That's basically I just think my transcripts was one of the ones that ended up getting lost along the way so I don't really know I'd rather just get a refund like I'm fine I just really need the refund even though it says it's not*

*refundable but still.”*

*“Basically, i did 2 outside courses. One in West LA College (psychology) and other was geometry course at BYU. I asked both the places to send my transcripts directly to UCI. They had faxed them, but, later (before the deadline) i got to know that they don't receive the fax. I'm new to US, and not aware of the system. It was long before that I asked the 2 places to send the transcripts directly. I confirmed from them that they sent. And UCI still hasn't received it. There was no means of communication carried by them in between. Then i got an email after long that my admission has been withdrawn. Whereas all my other transcripts have been received Among all those were faxed and then mailed, 2 were ignored. Among all those were faxed and then mailed, 2 were ignored. And right now when i asked them, they said I'm missing transcripts. Which for sure i had sent them long time back.”*

*“I am an incoming student to UCI. I turned in the needed transcripts well before their due dates. I had grades well above the minimum. They stated they never received a transcript for a couple summer college courses I took (two unnecessary courses I took to get ahead, received As in both) that I have evidence that I did turn in. Received an email directing me to check my uci portal, where I discovered that my admission was withdrawn.*

*“I was informed by my counselor that my high school transcript being sent to UCI would be enough for both high school and college transcripts due to it having my college records on there. I noticed later that my notification was still on my board so I called admissions office. They directed me to the message board so I asked through there if I should send in a separate college transcript. I received a message saying i should, but this was after my acceptance being withdrawn. I have sent an appeal already with my transcript from the college and now i am just Waiting.”*

*“Ok, well my highschool was supposed to send my official transcript to the school however after about two weeks after graduation i noticed that uci had not received anything. Later i sent what i thought was the official transcript that i got from my highschool but it was missing my last semester of senior year then i went back to the school and they gave me the official transcript to resend to UCI however i called them today and they said that they never received the official trans. even tho I sent it about two weeks ago or so”*

*“What I ask of admin: Why didn't you give students a chance to check up on transcripts after July 15th instead of just immediately withdrawing their admissions? How do transcripts somehow get lost in the process?”*

*“I ask that admin give a reason to students as to why their admission was taken, give a warning before taking away student admission or at least holding them on academic probation, and not bringing their problem of over enrollment into the admissions of students who earned their spot at UCI and have their documents.”*

*“I would also like to ask admin to please be more organized when processing these paperwork so that this scenario does not happen again in the future. Please do not shut out rescinded students from the message center. Although it is there, we have no way to respond or message our counselors so it is quite useless for us. I hope that the administration, though I understand how hectic things may be at the moment, improve their communication with the students.”*

*“The admissions office told me the reason why my application was withdrawn was because my graduation date wasn't printed on my official transcript, however, everything else had been turned in on time before the deadline. I even checked numerous times to make sure everything had been turned in and the boxes were all checked. This small error was completely out of my control. I have contacted UCI's admissions office, gone through the appeal system, and have even gone there personally to turn in documents backing up my claim including a letter from my high school principal.”*

**We have encouraged all applicants who have had their admission revoked to submit their appeal. In addition to responding to ALL appeals, We Demand:**

- *UCI Vice Chancellor of Enrollment Services* officially acknowledges and apologizes for the inconveniences created by the admissions errors and immediately engages in efforts to avoid any similar circumstances in the future.
- *UCI Admissions* provides the same provisional requirements as that of the normal admissions requirement.
- *UCI Department of Enrollment Services* releases information about the number of students affected by the provisional admissions and/or admissions revocation, as well as to provide case by case reasoning for admission withdrawal to each student.
- *UCI Admissions* removes SPOP requirement for revoked students, and coordinates an alternative orientation supplement for them
- All fees paid and associated with admissions process be reimbursed for all students whose admission status has been revoked.
- *UCI Admissions* establishes a special transfer agreement contract for all students whose admissions are provisional/revoked in that the students can choose to spend their first two years at the community college of their choice and are guaranteed an admission to UCI as transfer students upon satisfactory completion of their first two years at the community college.
  - This could be similar to how the TAG program works

*In solidarity,*
