The Office of the Student Advocate General wishes to release results of a four-week investigation regarding misconduct of ASUCI elected and appointed officer positions. This is to ensure transparency to the UCI student body so that students may be able to better understand recent events and stay properly informed. Multiple complaints have been filed with evidence and were thoroughly investigated by the Internal and External Student Advocate General as well as the Chief Accountability Officer. Due to potential privacy and FERPA implications, we are unable to release all evidence, except for testimony. The results of our investigations have found ASUCI Engineering Senator Bryce Lindsey and Senate Parliamentarian Kimo Gandall guilty for various charges including but not limited to: abuse of power, cronyism, harassment, coercion, and voter manipulation.

The following charges are the basis for the impeachment/removal charges against each individual:

**ASUCI Senate Parliamentarian Kimo Gandall:**
1. Coercing fellow judicial board members to vote with him for legislation and trials.
2. Colluding with Senator Lindsey to install himself on the Judicial board and Senate Parliamentarian.
3. Voter manipulation during and outside of Senate meetings for legislation and appointments.
4. Harassment of multiple members of ASUCI.

**ASUCI Engineering Senator Bryce Lindsey:**
1. Threatening and coercing other senators with impeachment and other threats for their votes.
2. Voter manipulation during and outside of Senate meetings for legislation and appointments.
3. Harassment of multiple members of ASUCI.
4. Colluding with Associate Justice and Senate Parliamentarian Gandall to install Gandall on the Judicial board and as Senate Parliamentarian.
5. Leaking confidential executive session information to Justice Gandall when his appointment was being discussed.

In conclusion, the Office of the Student Advocate General immediately requests the ASUCI Senate to initiate impeachment and/or removal charges against ASUCI Senate Parliamentarian Kimo Gandall and ASUCI Engineering Senator Bryce Lindsey for their
disbarment from ASUCI for the rest of their time at UCI. Their misconduct has tainted the integrity of both the ASUCI Senate and ASUCI as a whole, and the Office of the Student Advocate General formally calls for their impeachment and/or removal from office immediately.
